### Lesson Plan (Even Semester)

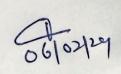

Name of the Faculty	:	Pawan Kuman
Discipline		Civil Engg
Semester		4th
Subject	:	Surveying-II(Theory and Practical)
Lesson Plan Duration	:	15 weeks
**Work load (Lecture / Pr	actical)	per week(in hours): Lectures-03, practicals -06

Theory Practical Week Lecture Topic (Including Practical Topic day assignment / test) Day 1st 1st Chapter1. Contouring Preparing a contour plan by radial line method lst Concept of contours by the use of a Tangent Clinometer/Tachometer 2nd Contour interval and horizontal Preparing a contour plan by radial line method 2nd equivalent, factors effecting contour by the use of a Tangent Clinometer/Tachometer interval, characteristics of contours Methods of contouring: Direct and 3rd 2nd Preparing a contour plan by method of squares 3rd indirect, use of stadia measurements in contour survey Interpolation of contours; use of 4th Preparing a contour plan by method of squares 4th contour map Computation of earth work and 5th 3rd 5th Preparing a contour plan of a Road/Railway reservoir capacity from a contour map track/Canal by taking cross sections. 6th Chapter2. Theodolite Surveying 6th Preparing a contour plan of a Road/Railway Working of a transit vernier track/Canal by taking cross sections. theodolite, axes of a theodolite and their relation

4th	7th	Temporary adjustments of a transit theodolite; concept of transiting, swinging, face left, face right and changing face measurement of horizontal and vertical angles.	7th	Taking out the Theodilite, mounting on the tripod and placing it back in the box
	8th	Prolonging a line (forward and backward) measurement of bearing of a line; traversing by included angles and deflection angle method	8th	Taking out the Theodilite, mounting on the tripod and placing it back in the box
STh	9th	Traversing by stadia measurement, theodolite triangulation, plotting a traverse; concept of coordinate	9th	Study of a transit vernier theodolite; temporary adjustments of theodolite
	10th	Errors in theodolite survey and precautions taken to minimize them; limits of precision in theodolite traversing	10th	Study of a transit vernier theodolite; temporary adjustments of theodolite
6th	11th	Errors in theodolite Height of objects – accessible and non-accessible bases	11th	Reading the vernier and working out the least count, measurement of horizontal angles by repetition and reiteration methods
7th	12th	Revision Assignment No. 1: 1. Method of Contour. 2. Use of Contour. 3. Adjustment of Theodolite. 4. Method of Theodolite	12th	Reading the vernier and working out the least count, measurement of horizontal angles by repetition and reiteration methods
-	13th	Sessional Test No. 1	13th	Measurement of vertical angles and use of tachometric tables
		Chapter3. Tacho-metric surveying Tachometry, Instruments to be used in tachometry	14th	Measurement of vertical angles and use of tachometric tables
	C	L/		

8th	15th	Methods of tachometry, stadia system	15th	N. Contraction of the second se
		of tachometry, general principles of stadia tachometry	ISth	Measurement of magnetic bearing of a line
	16th	Examples of stadiatachometry and Numerical problems.	16th	Measurement of magnetic bearing of a line
9th	17th	Chapter 4. Curves Need and definition of a simple circular curve; Elements of simple circular curve - Degree of the curve, radius of the curve, tangent length, point of intersection (Apex point)	17th	Running a closed traverse with a theodolite (at least five sides) and its plotting
	18th	Tangent point, length of curve, long chord deflection angle, Apex distance and Mid-ordinate. Setting out of simple	18th	Running a closed traverse with a theodolite (at least five sides) and its plotting
10th	19th	By linear measurements only and Offset from The Tangent	19th	Height of objects with and without accessible bases
	20th	Need (centrifugal force and super elevation) and definition of transition curve; requirements of transition curve; length of transition curve for roads; by cubic parabola;	20th	Height of objects with and without accessible bases
11th	21st	Calculation of offsets for a transition curve; setting out of a transition curve by tangential offsets only	21st	Setting out of a simple circular curve with given data by the following methods : Offsets from the chords produced
	22nd	Vertical curve Setting out of a vertical curve	22nd	Setting out of a simple circular curve with given data by the following methods : Offsets from the chords produced

12th	23rd	RevisionAssignment No.2:1. Tachometric Method.2. Simple Curve .3. Transition Curve4. Setting out Vertical Curve.	23rd	Setting out of a simple circular curve with One theodolite method
	24th	Sessional Test No. 2	24th	Setting out of a simple circular curve with One theodolite method
13th	25th	Chapter 5. Introduction to the use of Modern Surveying equipment and techniques such as a) EDM or Distomat b) Planimeter	25th	Demonstration and use of minor instruments like Ceylon Ghat Tracer, Tangent Clinometer, Pantagraph, Abney level etc.
	26th	Total station, Introduction to remote sensing, GIS and GPS	26th	Demonstration and use of minor instruments like Ceylon Ghat Tracer, Tangent Clinometer, Pantagraph, Abney level etc.
14th	27th	Chapter 6 Minor Instruments Introduction and use of minor instruments like Ceylon Ghat Tracer, Clinometer, Pantagraph, Abney Level etc.	27th	Demonstration of digital instruments through field visits to Survey of India and other government agencies.
Ī	28th	Use of planimeter for computing areas	28th	Demonstration of digital instruments through field visits to Survey of India and other government agencies.
15th	29th	RevisionAssignment No. 3:1. Explain EDM2. Explain Total station.3. Explain Remote Sensing4. Pentagraph.	29th	Total Station (only demonstrations).
	30th	Sessional Test No. 3	30th	Total Station (only demonstrations).
		Any additional available ho	urs shall	be used for revision

Semeste	r	4 <sup>th</sup>
Subject		MOOCS Elective (E-COMMERCE Technologies)
Week	Day	TheoryTopic/Assignment/Test
$1^{st}$	1	Introductionto ELECTRONIC COMMERCE(E-Commerce)
	2	Categories and Frame-work of E-Commerce
$2^{nd}$	1	Advantages & Disadvantages of E-Commerce, Types of E-Commerce
	2	Threats and Features of E-Commerce
3 <sup>rd</sup>	1	Concept of Business Model of E-Commerce and E-Governance
	2	Different Types of Networking For E-Commerce: Concept of Internet with its applications
$4^{\text{th}}$	1	Concept of Wireless Application Protocol
	2	Anatomy of Convergence: Technological Convergence
5 <sup>th</sup>	1	Technology Implications and Collaborative Product Development
	2	Concept of Content Management System, Web Traffic and Content Marketing
6 <sup>th</sup>	1	Concept of Supply Chain Management: Introduction, Features and Components, Advantages and Disadvantages
	2	Introduction about E-Payment Systems, Types of E-Payment Systems
$7^{th}$	1	E-cash System and Electronic Checks
	2	Concept of Smart Cards & Electronic Payment Systems
8 <sup>th</sup>	1	Discussion of Electronic Payments Issues
	2	Introduction of Electronic Data Interchange(EDI)
9 <sup>th</sup>	1	Layered Architecture of EDI and its Applications
	2	Concept of EDI Protocols
	1	Discussion about E-Marketing and Tele-Marketing
10 <sup>th</sup>	2	Security Threats of E-Commerce
11 <sup>th</sup>	1	Security Requirements of E-Commerce
	2	Security Policies for E-Commerce
	1	Concept of Enterprise Resource Planning (ERP)
12 <sup>th</sup>	2	Functional areas and Benefits of ERP
13 <sup>th</sup>	1	Business Modules in ERP: Finance, Investment Management, Plant Maintenance
	2	Business Modules in ERP: Quality Management, Materials Management
14 <sup>th</sup>	1	Introduction of Enterprise application integration (EAI)
	2	Advantages and Disadvantages of EAI

Name of Faculty	:	Ms. Pujjwal Mittal
Designation	:	Lecturer
Discipline	:	Common with Civil,Computer,Electrical ,Mech
Semester	:	4 <sup>th</sup>
Subject	:	English & Communication Skills-II
Lesson Plan Dura	ation:	15 Weeks (from February 2024 to June 2024)

Work Load(Lecture/Practical)per week(In hours): 02-Lectures / 02-Practicals

	Theory			Practical		
Week	Lecture Day	Topic(including assignment/Test)	Pract. Day	Торіс		
	1st	<b>UNIT I Reading</b> All The World's A Stage – W. Shakespeare	1	<b>Reading:-</b> Reading Practice of the above lessons in the Lab Activity classes.		
1st	2nd	<ul> <li>Life Sketch of Dr. Abdul Kalam</li> <li>The Portrait of a Lady - Khushwant Singh</li> </ul>	2	Comprehension exercises of unseen passages along with the given lessons.		
	1st	The Doctor's Word by R K Narayan	3	Vocabulary enrichment and grammar exercises based on the above selective readings		
2nd	2nd	Speech by Dr Kiran Bedi at IIM Indore2007 Leadership Concepts	4	Situational Conversation: Requesting and responding to requests; Expressing sympathy and condolence.		
3rd	1st	The Bet - by Anton Chekov	5	Warning; Asking and giving information.		
	2nd	Revision	6			
4th	1st	<b>UNIT -II Effective</b> <b>Communication Skills</b> Modern means of Communication (Video Conferencing, e- mail, Teleconferencing)	7			
	2nd	Effective Communication Skills: 7 C's of Communication	8	Getting and giving permission.		
5th	1st	Non-verbal Communication – Significance, Types and Techniques for Effective Communication	9	Asking for and giving opinions.		

	2nd	Barriers and Effectiveness in	10	A small formal and informal
		Listening Skills		speech.
6th	1st	Barriers and Effectiveness in Speaking Skills	11	Seminar
	2nd	<b>Revision/Test</b>	12	Debate
	1st	<b>UNIT III, Professional Writing</b>	13	Practice
7th	2nd	<ul> <li>Correspondence: Enquiry letters, placing orders, complaint letters</li> <li>Report Writing</li> </ul>	14	Practice
	1st	<ul><li>Memos</li><li>Circulars</li></ul>	15	Unseen Comprehension Passages and vocabulary enhancement.
8th	2nd	<ul> <li>Press Release</li> <li>Inspection Notes and tips for Note-taking</li> </ul>	16	Interview Skills: Preparing for the Interview and guidelines for success in the Interview and significance of acceptable body-language during the Interview.
041	1st	<ul><li>Corrigendum writing</li><li>Cover Letter</li></ul>	17	Written and Oral Drills will be undertaken in the class to facilitate holistic linguistic competency among learners.
9th	2nd	Drawing inferences	18	Participation in a GD, Functional and Non-functional roles in GD, case studies and role plays.
10/1	1st	Revision/Assignment	19	Presentations, using audio- visual aids (including power- point).
10th	2nd	UNIT IV. Grammar and Vocabulary Prepositions	20	. Telephonic interviews, face to face interviews
11th	1st	Conjunctions	21	Presentations as Mode of Communication: Persuasive Presentations using multi- media aids
	2nd	Punctuation	22	Practice
12th	1st	<ul> <li>Idioms and Phrases</li> <li>Pairs of words (Words commonly misused and confused)</li> </ul>	23	Practice
	2nd	Translation of Administrative and Technical Terms in Hindi or Mother	24	Practice

		tongue		
13th	1st	<b>UNIT V Employability Skills.</b> Presentation Skills: How to prepare and deliver a good presentation	24	Practice
	2nd	Telephone Etiquettes	26	Exercise
14th	1st	<ul> <li>Importance of developing employable and soft skills</li> <li>Resume Writing: Definition, Kinds of Resume, Difference between Bio-data and Curriculum Vitae and Preparing a Resume for Job/ Internship</li> </ul>	27	Exercise
	2nd	<ul> <li>Group discussions: Concept and fundamentals of GD, and learning Group Dynamics.</li> <li>Case Studies and Role Plays</li> </ul>	28	Exercise
	1st	Revision	29	Exercise
15th	2nd	Test	30	Exercise

### **LESSON PLAN**

#### NAME OF FACULTY: PAWAN KUMAR

#### **DISCIPLINE: CIVIL ENGINEERING**

#### **SEMESTER: IV**

#### SUBJECT: IRRIGATION ENGINEERING

#### **LESSON PLAN DURATION: 15 WEEKS**

#### WORK LOAD LECTURE PER WEEK: 2 LECTURES

Week	Lecture day	Topics
1 <sup>st</sup>	1	UNITI
		1. Introduction: Irrigation Engineering, Hydrological Cycle, Run-off and Catchment
		Area
	2	1.1 Definition and necessity of irrigation
		1.2 Major, medium and minor irrigation projects
2 <sup>nd</sup>	3	1.3 Hydrology and hydrological cycle
		1.4 Rain-gauges – automatic and non-automatic (Symons rain gauge)
	4	1.5 Methods of estimating average rainfall (Arithmetic system)
		1.6 Runoff and Factors affecting runoff, Catchment area
		1.7 Hydrograph and basic concept of unit hydrograph.
3 <sup>rd</sup>	5	UNIT II
		2. Water Requirement of Crops
	6	2.1 Principal crops in India and their water requirements
		2.2 Crop seasons – Kharif and Rabi
4 <sup>th</sup>	7	2.3 Crop period, base period, Duty, Delta and their relationship.
	8	2.4 Gross commanded area (GCA), culturable commanded area (CCA), Intensity of
		Irrigation, Irrigable area
5 <sup>th</sup>	9	Revision of previous topics
	10	1 <sup>ST</sup> Sessional
6 <sup>th</sup>	11	3. Methods of Irrigation
	12	3.1 Flow irrigation – Definition and its types (only description)
		3.2 Lift Irrigation – Tube well, Types of tube wells (only description)
7 <sup>th</sup>	13	3.3 Explanation of terms: water table, radius of influence, depression head, cone of
		depression, confined and unconfined aquifers, advantages and disadvantages of tube
	14	<ul><li>well irrigation.</li><li>3.3 Explanation of terms: water table, radius of influence, depression head, cone of</li></ul>
	14	depression, confined and unconfined aquifers, advantages and disadvantages of tube
		well irrigation.
8 <sup>th</sup>	15	3.4 Sprinkler irrigation- Conditions favourable, Types and component parts, advantages
		and disadvantages of sprinkler irrigation.
	16	3.5 Drip irrigation- layout, component parts, advantages and disadvantages of drip irrigation.
9 <sup>th</sup>	17	UNIT III
		4. Canals, Canal Head Works, Regulatory Works and Cross Drainage Works
	18	4.1 Definition and Classification of canal. (Visit to a Canal)

		**4.2 Appurtenances of a canal and their functions.
10 <sup>th</sup>	19	4.3 Various types of canal lining - their related advantages and disadvantages,
		4.4 Canal breaches and their control.
	20	4.5 Maintenance of lined and unlined canals
		4.6 Definition, objectives and general layout of different parts of head works.
11 <sup>th</sup>	21	4.7 Difference between weir and barrage
		**4.8 Definition and necessity of Cross Drainage Works (Visit to a Cross Drainage Works)
	22	**4.9 Concept of Aqueduct, super passage, level crossing, inlet and outlet.
12 <sup>th</sup>	23	Revision previous topics
	24	2 <sup>ND</sup> Sessional
13 <sup>th</sup>	25	5. Dams and hydraulic Structures
		5.1 Dam and its Classification
		**5.2 Earth dams - types, causes of failure; cross-section of zoned earth dam,
		method of construction,
	26	**5.3 Gravity dams – types, cross-sections of a dam, method of construction
		5.4 Concept of spillways and energy dissipaters
		5.5 Concept of Canal Falls, Outlets and Escapes
14 <sup>th</sup>	27	UNIT V
		6. River Training Works
		6.1 Definition, function of river training works.
		6.2 Types of river training- Embankments or levees.
	28	6.3 Concept of Guide bank, Groynes or spurs, Pitched island, Cut-off
		7. Water Logging and Drainage and Ground Water Re-charge
		7.1 Definition of water logging – its causes and effects.
		7.2 Detection, prevention and remedies
15 <sup>th</sup>	29	7.3 Surface and sub-surface drains and their layout (only description)
		7.4 Water Harvesting Techniques: Need and requirement.
		7.5 Various methods of rain water harvesting.
	30	3 <sup>RD</sup> Sessional
